I am here. Helen.

You are my love and I want you to love me with your whole heart. Be my own Ned. You had better not write much tonight for you are not in good condition.

Go to bed early and you will feel better in the morning. You must not let me take up too much of your time tonight as I am going to let your grandmother write awhile.

You must not forget to pray for me as usual with many kisses.

→ Your grandmother -

You are too nervous to write much to night, and all that I want to say is that you must believe that Jesus writes to you. He is in truth the Jesus of the Bible and you must believe that he is. You have the evidence of all of us and your own conscience tells you that he is the true Jesus. Let not the talk of the other spirits or of men cause you to disbelieve in his writing to you.
